

**We'll take you from
confusion to satisfaction.**

The health care system can be confusing. Many people visit a lot of doctors and feel lost in the system.

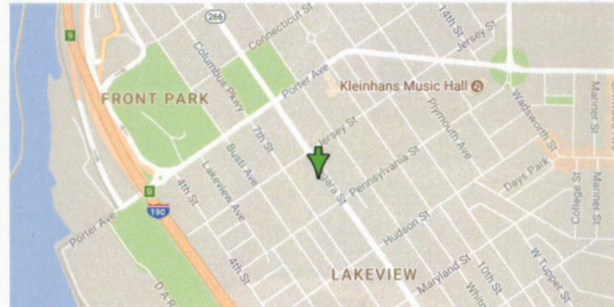

At Urban Family Practice, we will listen to your questions and guide you through the system.

At Urban Family Practice, your patient-centered medical home, we will help you:

- Get to know your health care team
- Work with other medical experts and specialists if needed
- Track your health information all in one place using our electronic medical record systems.

Welcome to Urban Family Practice

Dr. Raul Vazquez and the entire staff of Urban Family Practice (UFP) welcome you to our patient-centered medical home.

A patient-centered medical home is not a building, nor a house. It is a program that recognizes you are the most important person when it comes to your well-being. You are at the center of your health care. Around you are your primary care physician, clinical staff and specialists who work as a team to listen to your needs and help you find your way through the medical system.

The doctor is in...

Urban Family Practice is devoted to improving your total health at our new location – 564 Niagara Street, Building 2, Buffalo NY 14201. We offer friendly, bilingual (English/Spanish) services in comfortable, private settings.

Regular office hours are Monday through Friday, 8:00 a.m. – 5:00 p.m. However, there is always a provider on call to help you 24 hours a day; seven days a week. Just call our office at (716) 882-0366.

For life-threatening emergencies, you should always call 911 immediately.

Our Services

Primary care services – We are your first contact with the health care system and we serve as the focal point for all needed health care services. Urban Family Practice has the most up-to-date equipment available on-premises, including: diagnostic testing, labs, x-rays, vaccinations, EKGs, pre-operative testing and much more.

Courtesy van – A patient favorite, UFP offers a courtesy van that will pick you up at your home and drive you to your appointments, so transportation is not an issue.

Health tutorials – Patient education is one of the key factors in keeping people healthy. Tutorials are available online.
